

AKASHA is the Rose Pink Flame to the Earth from the Great Central Sun

AKASHA for all ages and in all civilizations has been a sacred word representing the **tremendous magnetic force** of the Mother's Presence, filling **all** inter-stellar space in the Universe out of which every object, planet and sun is formed in a state of Universal perfection.

The Akashic force is actually named **after** Akasha and is more than **anything** you have ever considered. This force, this consciousness that is impersonal and common to **all** Life, this force a number of **millions** of years ago (*in our current understanding of time*) was named **after** AKASHA and called the **Akasha Magnetic Force**.

AKASHA is a Manu, Silent Watcher/Avatar (*alongside Maitreya, Mighty Victory, Surya and Cyclopea*) and also one of the 144 Eloha's from the Heart of Creation and is the **Rose Pink Flame** of Divine Love, Will and Grace. As the Divine **Will** of the infinite **I AM Presence**, Her authority extends over **all** other Flames that come from the Great Central Sun, the **Sacred White Fire Flame** itself.

There are numerous Ascended Master Ladies of the spiritual hierarchy holding the Mother's Presence, including Beloved Mother Mary, Quan Yin and Lady Nada. However the **overall** authority is **Mother Akasha**, as She is the Rose Pink Flame to the Earth, the Heart and Soul of the Divine Mother's Presence from the Great Central Sun.

Humanity have become so disconnected from their true source leading to lives of such limitation. **2012** is a focus point whereby many human beings awakening to their true nature,

will begin to guide in one of the most amazing **GOLDEN AGES** that has ever been on the earth.

2012 represents the coming to a completion of limited human consciousness, opening the way for awakened human beings to express and live their full **Christ consciousness** upon the Earth again. This is a time when many prophecies of the Ascended Jesus Christ Emmanuel **will** be fulfilled and the advancement of **all** activities of life, will also unfold upon this planet.

On **May 26th 2012** the great Cosmic activities of this system of worlds, the physical sun, galaxy and the Great Central Sun, will work with the elements of this planet and the consciousness of humanity, offering people the opportunity to raise themselves up and out of a limited state of being, into the original **Divine Christ** consciousness - **The Mighty I AM Presence**.

Between May 26th and December 21st 2012 a **planetary shift** will unfold and **AKASHA** seeks to assist everyone to be ready for this.

Akasha's message:

"My message to all the people around the world who are awakening at this time in various spiritual studies and groups, using the major or many minor Dispensations currently upon this Earth – – you are at the critical phase of completing your awakening."

*What stands before you in the little time left towards **2012** and the years afterwards, is the **greatest opportunity since the 2nd Golden Age** and that is to actually **BECOME** that which you have awakened to, your great **Cosmic Self**, the **Mighty I AM Presence** walking freely upon the earth."*

The Ancient Lost Knowledge offers fundamental spiritual practices for humanity. When one awakens and one's own heart guides them to a source of higher knowledge, this will instruct them of the secret chambers, generators and

sacred flames, hidden deep within the human heart and of the Great Sound Rays, Light Rays, Love Rays and the alchemy of the Sacred Fire.

The most critical is the **Sacred Fire**. This includes the Rose Pink, White Fire, Violet Consuming and Cosmic Blue Flames and more, that the Ascended, Angelic, and one's own I AM Presence can produce in one's life. The **Sacred Fire** begins to cleanse all fear and discord that has ever registered in our being and world, allowing the Light and higher intelligence to start to find infinite expression.

At this time there are **three Great Dispensations*** upon the Earth:

1. **The Golden Ray of All Christ Illumination** anchored on the Earth through the Ascended Jesus Christ Emmanuel some two thousand years ago, offering Light, illumination and enlightenment.
2. **The Violet Ray**, anchored on the Earth through Saint Germain in the 1930s, offering purification, transmutation & transformation and comes from the Heart Flame of our own Mighty I AM Presence that dwells within and above us.
3. **The Rose Pink Ray** of Divine Love, Will and Grace, Heart and Soul – now anchored upon the Earth through **AKASHA**.

Fundamental Universal Truths:

The AKASHIC RECORD is the **Divine Plan** our **I AM Presence** (*Great Cosmic Self*) **has for each one of us.**

*It is the **Etheric Record** that records **ALL** of the past and is stored in the ethers. The Great Host of Light do not encourage **any human being** to access these **etheric records** of past lives, or **any events from the past**, as they also store the record and memory of **ALL** discord and darkness that has ever been upon the earth.*

Dispensation (permission from Source for a Divine intervention into the affairs of humanity)*

Akasha's closing words:

*“Be **determined** that you will not be counted amongst those on the Earth whose hearts have closed. Seek to be amongst those who continue to live from their heart and pray deeply for Angelic intervention, that your heart be fully opened, so that the **Love of the Mother's Presence** that has **long** been denied on this planet, may flow through your heart into your life. Seek that your **mind** be illumined by the Love and Light of your **heart**. **I AM Akasha**”*
